### DISCLOSURE OF INFORMATION ON RADON HAZARDS (For Residential Real Property Sales or Purchases)

#### Radon Warning Statement

Every buyer of any interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class-A human carcinogen, is the leading cause of lung cancer in non-smokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buyer with any information on radon test results of the dwelling showing elevated levels of radon in the seller's possession.

The Illinois Emergency Management Agency (IEMA) strongly recommends ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and mitigated if elevated levels are found. Elevated radon concentrations can easily be reduced by a qualified, licensed radon mitigator.

#### Seller's Disclosure (initial each of the following which applies)

- (a) Elevated radon concentrations (above EPA or IEMA recommended Radon Action Level) are known to be present within the dwelling. (Explain)
- (b) Seller has provided the purchaser with all available records and reports pertaining to elevated radon concentrations within the dwelling.
- (c) Seller either has no knowledge of elevated radon concentrations in the dwelling or prior elevated radon concentrations have been mitigated or remediated.
- (d) Seller has no records or reports pertaining to elevated radon concentrations within the dwelling.

#### Purchaser's Acknowledgment (initial each of the following which applies)

- (e) Purchaser has received copies of all information listed above.
- (f) Purchaser has received the IEMA approved Radon Disclosure Pamphlet.

#### Agent's Acknowledgement (initial)

- (g) Agent has informed the seller of the seller's obligations under Illinois law.

#### Certification of Accuracy

The following parties have reviewed the information above and each party certifies, to the best of his or her knowledge, that the information he or she has provided is true and accurate.

# DISCLOSURE OF INFORMATION AND ACKNOWLEDGMENT LEAD-BASED PAINT AND/OR LEAD-BASED PAINT HAZARDS

## Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.
